

LOOUIS LOW

ABOUT ME

I have worked in the low level/embedded domain for ten years. I am suffered at the hands of C/C++ for several years before I discovered Python, and it felt like a breath of fresh air. I am now sharing my love.

I worked with several startups as a freelance or in-house developer. I build web services and apps using open source technologies.

EXPERIENCE

dogs bark

2004-2018

Software Engineer (architect)

Canada

Embedded Design, Firmware Design, Prototyping and Automation. Machine Learning and Sound effect middle-ware engineering.

Goody

2016-2017, 2018-2019

Software Engineer (frontend)

Malaysia

Craft UI Material Design & Design System from scratch. Pure CSS FX without JS. Create custom frontend development tools with added subtle automation and CLI.

Internet Mastermind

2014-2015

Software Engineer (frontend)

Malaysia

Implement UI and UX for marketing related applications with Bootstrap UI framework. Frontend and backend UI prototyping (web, app). Custom web design with WordPress.

EDUCATIONS

Shrewsbury College

2008-2009

Visual Art & Design

UK

I also am artist. I gave myself a chance to step into a little bit deeper into the art. Also, I am a perfectionist either in UI or UX.

Univ. Manchester

2002-2005

Electrical & Electronic Engineering

UK

I was always wanting to be an inventor like robotic, anything since I was a little kid. But, well, they all came true. I just kept doing it. Never stop.

Chung Ling H. S.

1995-2000

Form 5

Malaysia

Just an ordinary student not very fond of school subjects, beside the computer programming and science classes. Never a good chance in Art class.
